Coordinator for Reconstruction & Stabilization

Civilian Response Corps

Interagency Reconstruction & Stabilization

FY 2010/11 Training, Exercises and Experiments

Update for the
Department of Defense
Worldwide Joint Training & Scheduling Conference
USG Interagency Training Coordinator Working Group

March 31, 2010

This Briefing is UNCLASSIFIED
per the Definitions in E.O. 12958

Coordinator for Reconstruction & Stabilization

Contents

- S/CRS Training Update
- Interagency Goals, Objectives, Requirements, and Priorities
- Current Engagements
- FY 2010/11 R&S Exercise and Experiments Schedule
- Evolution of the Interagency Management System
- Interagency Considerations Moving Forward

Coordinator for Reconstruction & Stabilization

The Civilian Response Corps (CRC)

Hire 250

USG civilian capacity that rapidly assesses crisis, designs response and begins R&S implementation.

Identify 2000

USG civilian agency employees who have ongoing job responsibilities but are trained and available to deploy when needed.

Recruit 2000

Volunteers from outside USG that provide sector-specific response expertise who become USG employees when mobilized.

Coordinator for Reconstruction & Stabilization

S/CRS Training Update

- **CRC Coursework**
  - Foundations (revised)
  - Level I Planners Course (revised)
  - SNOE Course
  - Specialized Courses (e.g., Communication)

- **Exercises and Experiments (E&E) Unit**
  - Established in FY 2009
  - Coordinates major CRC exercise engagements
  - Engagements guided by defined goals, requirements, and priorities

Coordinator for Reconstruction & Stabilization

Interagency (IA) Training Goals

- Prepare CRC and IA personnel for future field deployments
- Train CRC and IA personnel on developed concepts and doctrine
- Test and refine Interagency Management System (IMS) processes and procedures
- Advance integrated R&S planning and response capability

Coordinator for Reconstruction & Stabilization

Interagency Training Objectives

- Ensure ability to utilize R&S systems, methods and tools
- Improve ability to perform sectoral and functional roles with USG and international partners in complex R&S environments
- Improve IA capacity to develop integrated whole-of-government plans for R&S operations
- Inform and test new and existing doctrine and processes
- Build CRC personnel leadership, facilitation and teambuilding skills
- Ensure effective communication with host nation, international organizations, military actors, and civilian IA partners

Coordinator for Reconstruction & Stabilization

E&E Requirements

Individual
- Interpersonal and leadership skills training
- Situation analysis training
- Integrated planning training
- Whole-of-Government operations

Group/Team
- CRC teambuilding
- Field training with embassies, the military, international organizations and host nation actors
- IMS doctrine training (esp. situation analysis and planning)
- Tactical training to practice learned skills (i.e. medical training)

Systemic
- Enabling civilian participation and influence within largely military environments
- Testing home-agency reachback and whole-of-department planning in support of whole-of-government planning
- Civ-Civ integration
- Civ-IO integration
- Testing admin, technical, and other deployment processes

Doctrine
- Experimentation to inform doctrinal processes
- Experimentation to test Washington- and country-level processes

Coordinator for Reconstruction & Stabilization

E&E Priorities

- Test and train the IMS, building to a full IMS exercise
- Seek and build civilian-led, R&S–focused exercise opportunities
- Build new relationships with COCOMs, focusing on regions where we are likely to deploy
- Train with international and multinational partners (e.g., NATO, EU, UN)
- Exercise full interagency roles (e.g., reachback support) and whole-of-department planning
- Develop the civilian capacity to lead R&S exercises

UNCLASSIFIED

Coordinator for Reconstruction & Stabilization

Approach to E&E Engagements

- Identify opportunities that support E&E goals, requirements, priorities and considerations
- Work with JS J7 to coordinate COCOM stability operation exercises
- Synch with DOD two-year exercise schedule
- Ensure CRC personnel are part of the training audience
- When possible, conduct tabletop exercises and/or experiments to lead-up to larger exercise conduct

Coordinator for Reconstruction & Stabilization

Current Core Engagements

- **Austere Challenge (AC) - EUCOM**
  - AC 2009 first major exercise with CRC involvement
  - Continued AC 2010 involvement
- **Judicious Response (JR) 2010/11 - AFRICOM**
  - CRC-led stability operations storyline
  - Evaluates full IMS concept
- **Arrcade Fusion 2010 - NATO**
- **Civilian Deployment Center (CDC) Tabletops**
  - Evaluate AFRICOM deployment in April 2010
- **NATO CME/CMX 2010**

Coordinator for Reconstruction & Stabilization

FY 2010/11 E&E Schedule

	FY10				FY11			
	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4
CIV-CIV	CDC Tabletop	CDC Tabletop	CDC Tabletop	Civ-Civ Experiment CDC Tabletop	CDC Tabletop	Civ-Civ Experiment CDC Tabletop	CDC Tabletop	Civ-Civ Experiment CDC Tabletop
CIV-MIL			AC 2010 Conduct	JR 2010/11 Part 2 Conduct		JR 2010/11 Part 3 Conduct		JR 2010/11 Part 4 Conduct
CIV-IO	ARRCADE FUSION 09	NATO CME/CMX 09			NATO/EU CME/CMX 10? ARRCADE FUSION 10?	VIKING 11?		

Level I | Level II | Level III | Level IV

Coordinator for Reconstruction & Stabilization

Evolution of the Interagency Management System (IMS)

- IMS details doctrine that provides whole-of-government planning for R&S environments
- Components include the CRSG, IPC, ACT, and FACT
- IMS transitioning to a flexible “toolbox” approach
- CRC personnel and Interagency R&S planning can be trained in different ways for different scenarios
  - As part of the IMS
  - As stand-alone planners

Coordinator for Reconstruction & Stabilization

Interagency E&E Considerations Moving Forward

- Impact of real-world operations and events on resources
- Interest in PACOM engagements
  - Replace SOUTHCOM Integrated Advance 2011 (postponed)
- Exercising different CRC functional roles
- CRC as the training audience vs. role players
- Afghanistan pre-deployment training
- Exercise scenario flexibility
